

Learning Outcomes

1. **Design** interactive lessons using digital tools to enhance student engagement in both online and in-person settings.
2. **Implement** multimedia, gamification, and collaborative technologies to foster active participation.
3. **Safeguard** student data and communication using secure digital practices.
4. **Utilize** tools for secure collaboration and communication in educational environments.
5. **Develop** a strategy to ensure that all digital interactions remain secure and comply with legal standards (e.g., FERPA, GDPR).
